About the EVAC:

The EVAC movement was initiated by 20 at-hope African-American young men and their teacher, and the passionate belief that our Jacksonville community can—and will—be transformed through regular and intentional collaborative dialogue between youth and organizations impacting youth. Meeting regularly and on-goingly with officials, we present youth concerns and solutions that are based on the unique blend of our personal stories, hard data and knowledge from direct partnerships with local and national juvenile justice leaders. Some such dialogues and collaborations are pictured
